A BASIN WITH NO DRAIN HOLE!

Well almost!

Brand- Scarabeo Ceramiche srl, Italy
A break from the traditional design **Mizu**, designed by **Emo design**, is a ceramic washbasin where the central cut of the superior cap, which designs the object's graphic, drains the water in the bowl, where the drain hole is hidden. With its smooth lines, Mizu frees itself from being a water container becoming the container of a mechanical system, the drainage.
Available in round shape (diam. 44 cm) and rectangular shape (44x70 cm), free standing or encased. **Contact-** info@scarabeosrl.com
